

Despite the growth of electronic presentment and payment, providers are finding that they continue to struggle with payment and remittance processing. A major problem is that payments and remittance advice arrive at different times and in many formats. **The ability to identify denials, short payments, no coupon, etc. and other exceptions further complicates matters for your typical bank lockbox provider.**

Paperless Productivity helps meet this challenge with our **comprehensive receivables processing** solution developed specifically **for the healthcare industry** – one based on our 30 years of best practices experience that delivers more efficient, timely, and complete **processing of payments**. Get paid more. Get Paid Faster. Become Paperless.
